

To: Sir David Amess MP James Duddridge MP Mark Francois MP Rebecca Harris MP
Essex County Council and Southend Borough Council

We want our local MPs and Councils to reject the Mid and South Essex STP and refer the ill-conceived and dangerous plans for our local health infrastructure back to the Secretary of State for Health. The residents in the Southend-on-sea hospital catchment demand a fully operational GENERAL hospital with facilities to treat all manner of complex emergency medical conditions and surgical emergencies.

Our local hospital and community health and social care systems require investment and expansion - not re-location of NHS services for our residents requiring timely and local care.
